

**Instructions how to prepare a one page abstract for the
Perspectives in Numerical Analysis Conference at Helsinki
University of Technology, Finland, May 27.-29., 2008.**

First Author¹, Second Author²,

¹ Affiliations of the first author

² Affiliations of the second author

e-mail: e-mails of authors

ABSTRACT

Please, write with standard letters in font size 12 and avoid defining own macros. **The use of the latex-template of this example file is recommended.**

The abstract should contain the full name, full address and e-mails of author(s). In the case of joint authorships, the name of the author who will actually present the paper at the conference should be underlined.

Please, name your files after the corresponding author (ex.: `mellin.tex`) and **send the .tex file and the .pdf file to `perspectives@math.tkk.fi`.**

More details on the conference can be found at the web address:

<http://math.tkk.fi/numericsyear/perspectives>
